## **CRIME PREVENTION AND JUSTICE ASSISTANCE DIVISION HIGHLIGHTS**

### **Summary Statistics**

The Division sponsored and conducted 30 workshops and seminars in which more than 952 individuals participated. Topics included community mobilization, underage drinking, gangs, drugs, federal compliance to disability issues and fiscal guidelines, next generation of the JJIS. There were 66 community events that provided outreach to educate individuals on crime prevention as well as crime and safety issues. Approximately 55,639 persons participated in these community events. Another 65 individuals contacted the Research and Statistics Branch for information on crime, and many others utilized the Division's website to access information.

The Division applied for and received \$5,640,283 in federal funds to carry out programs that address crime and victim issues. State monies for career criminal, victim assistance, weed and seed, and witness protection totaled \$2,437,070. There were a total of 103 subgrants for both federal and state crime funds. At the end of the year, two applications for federal funds, totaling \$1,235,799 were pending.

By leveraging state funds to accomplish efforts to support and educate communities, the staff was able to engage partners to contribute \$28,872 to the Division's \$9,672. This does not include in-kind donations made by many agencies and organizations. Television stations contributed \$83,500 of airtime for McGruff public service announcements.

Ten reports were produced with topics ranging from hate crimes, the annual state crime statistics, evaluation of the Community Action Seminar, juvenile offenders, drunk driving, victim service strategy, and three reports related to the use of offender assessment instruments.

### **Underage Drinking**

Underage drinking was a special focus during the year.

- The annual Community Action Seminar (CAS) sponsored by the Division included information on underage drinking. There were 12 community teams and 18 youth teams that participated in developing 23 action plans to take back to their communities; 7 plans were developed to address underage drinking.
- In April 2006, the annual Training Institute focused on advertising and addiction: how advertisers use psychology to sell addictive products to vulnerable target audiences; ways that advertisers influence the media, how to understand and critique ads, and how to identify public policy strategies to reduce drug and alcohol related problems. Eighty-eight (88) participants included youth workers, public and private school personnel, health professionals, as well as community college and prevention organizations.
- Community and Crime Prevention Branch staff participates in the City and County of Honolulu- Hawaii Partnership to Prevent Underage Drinking (HPPUD). This is a

partnership with other agencies to address underage drinking with a comprehensive approach of law enforcement, education, media, and legislation.

- Staff participated in the National Association of Attorneys General (NAAG) Youth Access to Alcohol Task Force, a 21-state effort of Attorneys General. Community and Crime Prevention Branch staff researched and created a web page on Hawaii's underage drinking programs, initiatives, and laws to share with the other states. They also facilitated discussion between the University of Hawaii and Anheuser Busch on addressing underage drinking on college campuses.
- As part of the state's participation in the national "Reach Out Now National Teach Ins," coordinated by the Lieutenant Governor's Office, staff spoke to 5th & 6th grade students to educate them about underage drinking laws and the effects of underage drinking. Peer refusal skills and how students can get involved in their communities to prevent underage drinking were included in staff presentations, more than what was required. In May 2006, staff was able to reach 300 students in 3 schools. This outreach effort was successful and will be continued next year.
- Federal crime funds were granted to the Honolulu Police Department's "Da Grad" project, to educate students and parents about alternatives to celebrating high school graduation without alcohol use.
- A report on Driving Under the Influence in the City and County of Honolulu was completed and published in January 2006. It analyzes data on DUI arrestees and provides a profile of the individuals and outcomes. This was done in partnership with the University of Hawaii-West Oahu. The analysis was shared with the community at 2 meetings.

### **Juvenile Justice**

- Division staff was successful in getting a 3rd year of federal funds to continue the implementation of the Next Generation Juvenile Justice Information System (NG JJIS). The prior year funding was used to hire the NG JJIS Project Manager and a research analyst as well as development of the conceptual design. Through the conceptual design effort, 88 policy issues were identified by the juvenile justice agencies. These policy issues were researched, discussed among the Juvenile Justice Information Committee members, and voted upon. Some of the key policy decisions include limited information sharing with the Departments of Education, Health, and Human Services (child protective services); access to juvenile pictures under specific conditions; support for identifying high risk juveniles and the establishment of a standard statewide booking form for juveniles.
- An outline of the JJIS strategic plan was completed, which will guide the completion of the NG JJIS and provide for measurements of its success.
- The juvenile research analyst completed 2 reports: *The Female Juvenile Offender in Hawaii* and *The Serious Juvenile Offender in Hawaii*. Presentations to the JJIC were made to provide them with findings of the reports. In July 2006, the research analyst presented the

findings of *The Female Juvenile Offender* as it related to Hawaii County's juveniles at their conference on the Female Offender.

- Geographical Information System (GIS) in the JJIS is a cutting edge effort and will be part of the NG JJIS. Two demonstrations of the JJIS GIS were made to the state ESRI User Group and the East-West Center Summer Population Seminar.
- A partnership with the National Center for Juvenile Justice (NCJJ), the research division of the National Council of Juvenile and Family Court Judges, was initiated and resulted in 2 outcomes. (1) The Family Court statistics that NCJJ needs for its national reporting will be provided annually by the JJIS; this was in agreement with the Family Court. (2) The Office of Youth Services (OYS) is required to report Disproportionate Minority Contact (DMC) data to the Office of Juvenile Justice and Delinquency Prevention annually. It was agreed that the JJIS will provide the annual DMC statistics to OYS so that they can report it to the OJJDP without doing the data collection themselves.
- Because of the data in the JJIS, staff has been part of several efforts in addressing youth issues. JJIS data is used in the Big Island's Serious and Habitual Offender Comprehensive Action Program (SHOCAP), which is to address high-risk youth as a multi-agency, collaborative effort. The OYS Truancy Committee seeks to address the truancy problem in the school, justice system, and the community. JJIS and Community and Crime Prevention Branch staff are involved in this multi-agency effort.

### **Sexual Assault**

- As a result of Act 133, SLH 2005, the 2006 Legislature transferred state funding for sexual assault services from the Department of Health to the Department of the Attorney General. With the federal victim grants that the Department administers, a comprehensive approach to sex assault services will be developed. The Attorney General was able to secure an additional \$1 million for sex assault services, totaling \$2 million in state monies.
- The Division staff was invited as part of a state team to develop a rape prevention education strategic plan. This prevention plan will be developed in the next fiscal year by the Department of Health, and it will supplement the continuum of services needed to address sex assault.
- Staff assisted the Hawaii Paroling Authority to secure technical assistance for those overseeing sex assault offenders. Staff also assisted the Department of Public Safety in applying for a federal grant to improve such treatment services (this application was later approved for funding).
- Federal monies administered by the Division were used to fund projects throughout the state: multi-disciplinary training in sex assault investigation, prosecution, and treatment; Sex Assault Nurse Examiner programs; outreach to immigrant/non-English speaking victims of sexual assaults; tracking and registration of sex offenders; and treatment program for sex offenders.

- Staff participates in the SOMT meetings, and will be collecting and analyzing assessment data on sex offenders in the next fiscal year.

### **Interagency Council on Intermediate Sanctions (ICIS)**

- The Division continues to participate in the ICIS efforts to reduce criminal offenders' recidivism through an array of expertise. This includes Research Branch personnel: data analysis and assessment; providing protocol-oriented recommendations; publishing reports; conducting presentations to the ICIS Working Group and Policy Council; chairing the ICIS Research Committee; editing of the ICIS newsletter; and maintaining the ICIS website which staff created. It should be noted that the Judiciary's ICIS Research Analyst's supervision and the overall research effort is the responsibility of the branch as the Judiciary does not have the infrastructure to conduct/oversee such research.
- In the effort to improve the service and treatment response to reduce offender recidivism, ICIS adopted the Correctional Program Checklist (CPC) to measure program integrity and quality. Grants and Planning Branch staff is the facilitator of the CPC Coordinating Committee. The committee is responsible for developing the processes for coordinating/assigning review teams, scheduling assessments, completing service provider assessments, reviewing assessment reports and responses, providing technical assistance to programs, and developing policies and procedures for program assessment. CPC members include representatives from the Departments of Public Safety, Health, and Human Services; the Judiciary; and the Hawaii Paroling Authority. To date, six program evaluations have been completed. The CPC is being used to assess adult substance abuse, domestic violence, and sex offender treatment programs to ensure that evidence based practices are used and that a sound agency organization exists.
- *HOPE Project.* A separate, but part of the ICIS effort, is HOPE ("Hawaii's Opportunity-Based Probation with Enforcement") Project, an initiative that seeks to reduce felony probation failure rates by holding probationers accountable to the terms and conditions of their sentences through the imposition of swift and certain "intermediate sanctions" (brief jail terms and/or referrals to in-patient treatment programs) whenever non-compliance occurs. Research Branch staff are assisting the Judiciary in collecting and analyzing the data from this effort. Preliminary results suggest that this approach is very effective in increasing compliance of meetings with the probation officers and clean urinalysis of the felony probation population. The Judiciary received \$1 million to expand the program in the next fiscal year. The National Institute of Justice and a UCLA criminologist with expertise in this area are interested in the project, and have scheduled independent site visits next year.
- The ICIS website: **[www.hawaii.gov/icis](http://www.hawaii.gov/icis)**. Reports and newsletters can be accessed by anyone interested on the latest developments of this statewide, collaborative, and interagency effort to reduce recidivism among criminal offenders in the State.

## **Technical Assistance**

In order to assist and improve system and services in the State, the division initiated several requests for national and federal assistance.

- In August 2005, the Integrated Justice Information Systems (IJIS) Institute agreed to review and assess both the functional and technical requirements that had been developed for the Next Generation JJIS. The IJIS Institute is a public/private partnership formed at the request of BJA with a mission to “apply the expertise of industry to assist the justice and public safety community in the innovative and effective use of technologies to better share information in a way that benefits industry, the public sector, and society as a whole.”

In its report, IJIS confirmed the appropriateness of the proposed development environment and the completeness of the functional and technical requirements. Several policy and procedural areas that needed to be addressed were identified. The confirmation from IJIS was important because of the significant cost of the NG JJIS. Having a solid first phase as the foundation for subsequent design and development is critical to the success of the project.

- As previously reported above (Juvenile Justice), the NCJJ provided assistance for the State’s need for national reports; they also assisted in an analysis of the JJIS data and how it could be better used for research purposes.
- JJIS staff participated in the technical assistance from SEARCH on development of an IT security policy for the Department. There were three on-site visits from SEARCH security experts during the fiscal year. The technical assistance included an overview of a risk assessment tool, working through the self-assessment tool, and reviewing roles and activities. These activities formed the basis for development of a desktop security policy and will also be used in future policies related to IT security.
- The Department of Justice provided two federal grant compliance training workshops. The Division opened the workshops to any agency in the State that received federal grants. The workshops were on ADA-disabilities (131 participants) and financial management (90 participants).
- Criminal justice agencies’ program specialists, who deal with contracts with service providers, were trained by a National Institute of Corrections consultant on how to assess programs that work with criminal offenders. The consultant reviewed and critiqued completed team program evaluations and provided training on the new assessment protocol (Correctional Program Checklist). This will support the criminal justice system’s effort to improve services to offenders to reduce recidivism.
- Division staff assisted the Hawaii Paroling Authority to apply for and receive training and technical assistance from the national Center for Sex Offender Management (CSOM). This provided a facilitated review and development of a strategic plan for the Hawaii Sex Offender Management Team (juvenile and adult) to move forward in their efforts to improve treatment of these serious offenders.

## **National Sharing**

- Staff was invited to the annual National Conference on Preventing Crime Conference in October 2005 to present 2 programs on Hawaii's McGruff Crime Prevention Campaign. One was on the McGruff Truck Program and the Division's collaboration with 8 corporate agencies and the schools and the other, a training video "Roughing McGruff: Things Not to Do" created by the Division staff. The training video is the second video created by staff and shared nationally. These are 2 videos used by other jurisdictions, as none is available from the national office. The videos were duplicated by the national office and distributed to jurisdiction representatives at the conference.
- Staff was invited to conduct a workshop on the Interagency Council on Intermediate Sanctions (ICIS) effort in Hawaii by the National Criminal Justice Association at their annual conference. Because ICIS utilizes evidence-based methods and treatment, and because it is a statewide and multi-agency collaboration, Hawaii is on the cutting-edge of efforts to reduce recidivism.
- Through the National Association of Attorneys General, Hawaii's effort in preventing and intervening in underage drinking and laws related to underage drinking are shared with other jurisdictions through their website.

## **COMMUNITY AND CRIME PREVENTION BRANCH**

Valerie Mariano, Chief of Community and Crime Prevention  
Clarice Kamiya, Community and Crime Prevention Specialist (through 7/14/2005)  
Andrew Cha, Community and Crime Prevention Specialist (through 1/10/2006)  
Kristell Corpuz, Community and Crime Prevention Specialist (started 10/3/2005)  
Angela Kaiwikuamooohoihou, Community and Crime Prevention Specialist (started 4/17/2006)

During FY 2006, the Branch's two specialists resigned. Two new specialists were hired during the year and were trained on the Branch's programs, projects, and activities, as well as the philosophies and concepts of "prevention" and "crime prevention" in order to provide community outreach to citizens.

### **MAJOR ACCOMPLISHMENTS AND IMPACT**

**1. Crime Prevention Month Proclamation with Lieutenant Governor James "Duke" Aiona, Jr. (September 27, 2005) at Governor's Office and McGruff's 25<sup>th</sup> Anniversary Celebration (October 1, 2005) at Ala Moana Centerstage**

In 2005, McGruff celebrated his 25<sup>th</sup> Anniversary in Crime Prevention. Throughout the nation, anniversary celebrations and other festivities were coordinated by law enforcement and community groups. The Department of the Attorney General coordinated a proclamation signing with Lieutenant Governor James "Duke" Aiona, Jr., along with those who have supported the McGruff campaign during the past 20 years in Hawaii.

In addition, McGruff's 25<sup>th</sup> Anniversary Celebrations, in conjunction with Crime Prevention Month, were held on Maui (September 10, 2005), Oahu (October 1, 2005), and Hawaii (October 15, 2005). Maui Electric Company and Hawaii Electric Light Company coordinated the anniversary celebrations with their annual MECO and HELCO in Your Community events. Anniversary celebrations included entertainment, distribution of cake, balloons, and crime prevention materials.

**Impact:** A total of approximately 3,400 people attended the celebrations, on Maui (1,500), Oahu (1,200), and Hawaii (700). On Oahu, the following emcees and entertainers donated their services: Kirk Matthews, KHON-2 News; Linda Coble, KHON-2 news reporter; Na Leo Nahenahe `O Na Kupuna (senior halau); Magician Harvey Ouchi; Halau Hula O Hokulani (keiki halau); and music by Ma`ikai. In addition, 70 youth volunteers (HPD Explorers and Junior Optimists) and 5 adult volunteers (Optimist Club of Honolulu) assisted in distributing McGruff's anniversary cake, balloons, and crime prevention materials to the public.

Entertainment services, with an estimated value of \$550.00, were donated to the celebration. State funding of \$473.78 was expended to coordinate the event.

**2. Ola Pono Awards, February 3, 2006, Hale Koa Hotel**

This luncheon awards ceremony recognizes individuals and groups who have made an exemplary contribution to drug and violence-free efforts in Hawaii. This is a collaborative effort with the Department of Education's Safe and Drug-Free Schools and Communities Program, Coalition for a Drug-Free Hawaii, and Kamehameha Schools. Branch staff assisted in distributing nomination forms, selecting nominations, judging, producing a video for the awards ceremony, and coordinating the luncheon program. This year, HMSA coordinated the recognition of the 2006 winners in their own communities and provided funds for print recognition in MidWeek and Island Scene magazine. Hawaiian Telcom, a McGruff Truck company participant, was a corporate sponsor. Each winner was awarded \$1,000 that was donated to their selected beneficiary.

**Impact:** There were 10 Ola Pono Award winners in 2006. Winners were from the Big Island (2 winners), Oahu (5 winners), Maui (2 winners), and a state coaching organization.

**3. 2006 Community Action Seminar (CAS), March 21-22, 2006, Kamehameha Schools, Kapalama High School Campus**

The annual training was co-sponsored with and planned by the Department of Education; Honolulu Police Department; Housing and Community Development Corporation of Hawaii; Coalition for a Drug-Free Hawaii; Department of Health, Alcohol and Drug Abuse Division; Mothers Against Drunk Driving Hawaii; Kamehameha Schools; and Kamehameha Scholars. The focus of the CAS was the prevention of underage drinking, drugs, and youth gangs. A youth track was added to the CAS this year.

**Agency Contributions:**

- Department of the Attorney General: Branch staff coordinated the conference. \$9,198 was provided for conference expenses.
- Department of Education: Safe and Drug-Free Schools and Communities Program provided \$12,198 in federal SDFSC funds (\$9,198 for conference expenses and \$3,000 for youth team registration fees), facilitated workshops, and contributed to the planning and implementation of the CAS youth track.
- Honolulu Police Department: The Juvenile Services and Community Affairs Divisions provided speakers on gangs and youth perspectives, recruited youth and community policing officers to attend the conference, and provided HPD Explorers to assist with parking and other logistics.
- Coalition for a Drug-Free Hawaii: The Coalition provided \$320 (registration fees for the Ewalution team), coordinated exhibitors, and recruited speakers.
- Department of Health, Alcohol and Drug Abuse Division (ADAD): ADAD paid for expenses of two speakers (\$1,400) and provided use of their audio/visual equipment.
- Kamehameha Schools: Kamehameha Schools provided the conference site and assisted in coordinating logistics, meals, and audio/visual needs for the conference. They also participated as a presenter and facilitator and oversaw the youth track sessions.

- Kamehameha Scholars: Kamehameha Scholars work with Leeward and Windward Oahu youth who have not been accepted into Kamehameha Schools. These youth are provided academic, citizenship, leadership, and service learning training. The program contributed \$560 (registration fees), assisted in developing the youth track agenda, and coordinated the team building sessions.
- Mothers Against Drunk Driving Hawaii: MADD coordinated exhibitors and provided speaker recommendations.
- Housing and Community Development Corporation of Hawaii (HCDCH): HCDCH provided \$800 in federal funding (registration fees) for Oahu housing residents and community representatives.

**Impact:** 233 participants were registered – 33 individuals, 12 community teams (98 adults), and 18 youth teams (102 chaperones and students). 22 action plans (8 community teams and 14 youth teams) were submitted at the end of the conference.

The adult track participants included representatives from housing (29%), service providers (31%), education (10%), youth (7%), faith-based (7%), law enforcement (4%), and government (2%). A majority of the participants (70%) were returning CAS participants, while 30% were first-time CAS participants. The youth track participants included representatives from schools (54%), law enforcement (21%), service providers (16%), and housing (9%). A majority of the youth track participants (96%) were first-time CAS participants.

All speakers received positive ratings. Adult participants felt that CAS helped their team to be better prepared to work on community mobilization projects, that it was worth their time to attend CAS, and that they would recommend others to attend CAS. Youth participants felt that the team sharing session provided their teams with information that they could use.

#### 4. Reach Out Now National Teach-Ins, March to May 2006

In March 2006, Branch staff collaborated with the Office of the Lieutenant Governor to recruit local celebrities, role models, and volunteers as speakers in the “Reach Out Now National Teach-Ins.” The “Teach-Ins” are provided as a service to 5<sup>th</sup> and 6<sup>th</sup> grade students to educate them about underage drinking laws and the effects of underage drinking. Peer refusal skills and how students can get involved in their communities to prevent underage drinking were included by Branch staff in their presentations. Other agencies in this collaboration included Department of Education; Department of Health, Alcohol and Drug Abuse Division; Mothers Against Drunk Driving Hawaii; Coalition for a Drug-Free Hawaii; Hawaii National Guard; and others.

**Impact:** More than 48 volunteers were recruited and 58 schools statewide participated in this effort from March to May 2006.

During May 2006, CCP staff educated 115 students at Pohakea Elementary School, 130 students at Honowai Elementary School, and 50 students at Holomua Elementary School.

As a result of the success of the “Teach-Ins,” Branch staff will continue to provide these educational sessions to schools as requested throughout the next school year.

**5. Training Institute: “Deadly Persuasion: Advertising and Addiction,” April 19, 2006, Ilikai Hotel**

The Training Institute is an annual workshop coordinated by the Branch in partnership with other agencies. Co-sponsors for the 2006 Training Institute included the Coalition for a Drug-Free Hawaii (Girls Tobacco Prevention Project and Hawaii Girls Project); Department of Education’s Safe and Drug-Free Schools and Communities Program; Department of Health, Alcohol and Drug Abuse Division and Tobacco Prevention and Education Program; Mothers Against Drunk Driving Hawaii; and Office of Youth Services.

The purpose of the workshop was to provide information on: 1) how advertisers use psychology to sell addictive products, especially to vulnerable target audiences, 2) ways that advertisers influence the media, 3) gender stereotypes to addictions, 4) how to understand and critique ads, and 5) how to identify public policy strategies to reduce drug-related problems.

**Agency Contributions:**

In addition to helping to plan the workshop, the Department of Education contributed \$800 (registration fees), Department of Health ADAD contributed \$1,360 (registration fees), DOH Tobacco Prevention and Education Program contributed \$1,487.30 (rental of audio/visual equipment), the Coalition for a Drug-Free Hawaii contributed \$147 (refreshments), and the Office of Youth Services contributed \$250 (inter-island airfare).

**Impact:** 88 participants attended the Training Institute. Participants represented service providers, public and private schools, health professionals, special interest groups, tobacco prevention groups, and a community college.

75% of the participants indicated that they would use the information to prepare community presentations. 71% indicated that they would share the information with co-workers, 49% with family members, and 14% to plan future training sessions.

**6. National Association of Attorneys General (NAAG), Youth Access to Alcohol Task Force (YAATF)**

The Branch researched and provided narrative descriptions on Hawaii’s underage drinking programs, initiatives, and laws. The information provided by the Attorneys General from 21 states was compiled by YAATF for a presentation at the NAAG December 2005 meeting.

At the request of NAAG, a department web page on Hawaii’s underage drinking initiatives was created. A link to the department’s web page is included on the NAAG website so that other states are able to view Hawaii’s initiatives.

The Branch convened a meeting with representatives from the University of Hawaii,

Anheuser Busch, and the Attorney General to discuss funding of programs to address underage drinking on campus.

**Impact:** NAAG has reported that the web page on underage drinking received 48,482 hits in September 2005 (the month it went online).

7. **Presentation at the 7<sup>th</sup> National Conference on Preventing Crime, October 7-11, 2005 in Washington, D.C.**

Branch staff was invited to participate in a general session and a breakout session at the 7<sup>th</sup> National Conference on Preventing Crime on October 7-11, 2005 in Washington, D.C. to share information about Hawaii's McGruff Truck Program and on how the McGruff campaign works with local media.

In addition, at the State Leaders' Forum, Branch Chief Valerie Mariano was selected to sit on the National Crime Prevention Council's (NCPC) Media Committee as a representative of the Crime Prevention Coalition of America.

**Impact:** Approximately 1,000 people from throughout the nation attended the conference and learned of Hawaii's crime prevention efforts.

NCPC distributed 40 copies of Hawaii's "Roughing McGruff: Things Not to Do" training video to participants who attended the McGruff Convention. The video was produced by Branch staff for training McGruff and Scruff characters and seeing eye persons.

**McGRUFF CRIME PREVENTION CAMPAIGN**

1. **McGruff Truck Program**

Quarterly meetings were held with the McGruff Truck Coalition to discuss statewide plans for the program, company employee trainings, public relations, school assemblies, and special events. Information from the Coalition meetings was shared with NCPC and the National McGruff House and Truck Network in Salt Lake City, Utah.

**McGruff Truck Coalition Meetings**

September 16, 2005 at Hawaii Electric Light Company (Hawaii) – 8 members, 2 staff

December 2, 2005 at The Gas Company (Oahu) – 10 members, 2 guests, 2 staff

March 10, 2006 at Oceanic Time Warner Cable (Oahu) – 8 members, 2 staff

June 16, 2006 at The Gas Company (Oahu) – 8 members, 2 staff

**McGruff Truck Coalition members include representatives from:**

Hawaii Electric Light Company  
Hawaiian Electric Company  
Hawaiian Telcom  
Kauai Island Utility Cooperative

Maui Electric Company  
Oceanic Time Warner Cable  
The Gas Company  
Verizon Federal

### **McGruff Truck Driver Trainings**

**Number of drivers trained by the CCP staff: 91 drivers** (does not include the number of drivers trained by companies who conduct their own driver training).

1. Maui Electric Company, July 27, 2005 – 50
2. Verizon Federal at Pearl Harbor, December 14, 2005 – 16
3. Verizon Federal at Schofield, February 9, 2006 – 25

### **OAHU McGruff Truck School Assemblies**

**Number of Oahu students who were provided information on the McGruff Truck Program: 1,070 students**

April 3, 2006	Coordinator:	Oceanic Time Warner Cable
Salt Lake Elementary School	K-2	350 students
Aiea Elementary School	K-6	450 students
Pearl Ridge Elementary School	K-2	270 students

### **HAWAII, MAUI, KAUAI McGruff Truck School Assemblies**

No information provided.

## **2. McGruff and Scruff Character Trainings**

**Number of McGruff, Scruff, and seeing eye volunteers trained: 24 volunteers**

1. February 24, 2006 – 20 volunteers
2. June 30, 2006 – 4 volunteers

## **3. McGruff School Visits**

**OAHU – Number of students who received McGruff's crime prevention messages: 1,432 students**

1. Mililani Presbyterian Preschool (October 14, 2005) – 130
2. Mokapu Elementary School (October 24, 2005) – 190
3. Mokapu Elementary School (October 25, 2005) – 269
4. Child Development Center – MCBH (October 25, 2005) – 191
5. Aliamanu Children Development Center (December 16, 2005) – 45
6. Aliamanu Children Development Center (January 11, 2005) – 20
7. Mililani Ika Elementary School (March 10, 2006) – 300
8. Blanche Pope Elementary School (May 05, 2006) – 287

**HAWAII** – no information provided

**MAUI – Number of students who received McGruff's crime prevention messages: 106 students**

1. St. Anthony Preschool (March 3, 2006) – 45
2. Makawao A Headstart (April 28, 2006) – 15

3. Wailuku Union Preschool (May 10, 2006) – 30
4. Makawao B Headstart (May 12, 2006) – 15
5. Na Kamali'I Hoaloha Preschool in Kaunakakai, Molokai (May 16, 2006) – 15

**KAUAI – Number of students who received McGruff's crime prevention messages:  
100 students**

1. Kamehameha Schools Extension Education Program – 30
2. Day Care Center – 30
3. All Saints Church Day Care – 40

**A TOTAL OF 2,708 STUDENTS STATEWIDE RECEIVED THE McGRUFF TRUCK  
AND McGRUFF CRIME PREVENTION MESSAGES IN FY 2006**

**4. McGruff Public Appearances**

**A total of 47,956 people throughout the state were exposed to McGruff, the Crime Dog and his messages.**

**OAHU**

1. 4<sup>th</sup> of July Spectacular at Schofield Barrack (July 4, 2005) – 5,000
2. Summer Fun Program (July 13, 2005) – 36
3. Mililani Town's National Night Out (August 2, 2005) – 1,000
4. Waianae Sunset on the Beach (August 13-14, 2005) – 2,500
5. American Heart Association – 12<sup>th</sup> Annual Oahu Heart Walk (August 13, 2005) – 750
6. VP-4 Command Safety Fair (August 26, 2005) – 200
7. I Love Liliha (August 27, 2005) – 900
8. Palolo Pride (September 20, 2005) – 1,000
9. Waipahu Ohana Day (September 24, 2005) – 250
10. Children & Youth Month (October 2, 2005) – 1,000
11. Pali Momi Family Health Fair (October 8, 2005) – 500
12. 10<sup>th</sup> Annual Discover Moiliili Festival (October 8, 2005) – 300
13. Ace Hardware Hawaii Community Safety (October 29, 2005) – 400
14. Community Safety Awareness (October 29, 2005) – 1,000
15. Liliha Business Association Christmas Parade (November 25, 2005) – 2,000
16. Waikiki Holiday Parade (November 25, 2005) – 2,000
17. Waipahu Christmas Parade & Songfest (December 10, 2005) – 600
18. 2006 Honolulu Centennial Night in Chinatown Parade (January 21, 2006) – 1,500
19. Diamond Head Complex Easter Egg Hunt (April 8, 2006) – 600
20. Foster Parent Appreciation and Recruitment Fair (April 9, 2006) – 300
21. New Hope Christian Fellowship Angel Tree Easter Celebration (April 15, 2006) – 10,000
22. PACT Kids Day (May 3, 2006) – 1,000
23. Health & Safety Fair at Waipahu Town Center (May 20, 2006) – 700
24. Missing Child Day Keiki ID Event (May 21, 2006) – 400
25. Kids Night Out (May 26, 2006) – 70
26. Family Day Ready to Learn (June 11, 2006) – 6,000

## **HAWAII**

1. 44<sup>th</sup> Annual Lantern Parade (August 6, 2005) – 2,000
2. American Heart Association Family Fun Day and Heart Walk (February 11, 2006) – 1,000
3. Kids Day America (May 20, 2006) – 500

## **MAUI**

1. MECO In Our Community at Queen Kaahumanu Center (September 10, 2005) – 1,500+
2. Wal-Mart Safety Month (October 29, 2005) – 300 +
3. Children's Safety Fair (April 08, 2006) – 1,500
4. Molokai's Charity Walk (May 06, 2006) – 150+

## **KAUAI**

1. Mahelona Hospital – 1,000

## **KUPUNA ID PROJECT**

The purpose of the Kupuna ID Program is to provide a free emergency identification card for senior citizens (65 years or older). The senior's photo, name, and emergency contact information are included on the card to assist the police department and other emergency personnel. Partners include the Honolulu Police Department; State Farm Insurance Company; City and County of Honolulu Department of Parks and Recreation, Department of Community Services Elderly Affairs Division, Department of Emergency Services Emergency Medical Services Division; State Executive Office of Aging; and Alzheimer's Association – Safe Return.

The program was initiated on September 26, 2003. In September 2006, the project will be officially transferred to the Department of Health, Executive Office of Aging, SageWatch Program.

During FY 2006, the Branch participated in four community events to provide Kupuna ID cards to seniors. A total of 1,405 senior safety identification cards were provided.

1. August 27, 2005, I Love Liliha, 18 cards
2. September 23-25, 2005, Seniors Fair, 1,225 cards
3. December 5, 2005, Kamalu Elderly Housing Project, 105 cards
4. May 20, 2006, Waipahu Health & Safety Fair, 57 cards

## **PARTNERSHIPS AND COMMITTEES BY THE BRANCH**

### **Businesses**

- Hawaii Electric Light Company
- Hawaiian Electric Company
- Hawaiian Telcom
- Kauai Island Utility Cooperative
- Kauai Department of Water
- Maui Electric Company
- Oceanic Time Warner Cable
- The Gas Company
- Verizon Federal

### **Media**

- KFVE
- KHNL
- Oceanic Time Warner Cable

### **Federal Government and Military**

- Fort Shafter
- Hickam Air Force Base
- Marine Corps Base of Hawaii
- Pearl Harbor
- Schofield Barracks

### **State Government Agencies**

- Department of Education's Safe and Drug-Free Schools and Communities Program
- Department of Health, Alcohol and Drug Abuse Division
- Department of Health, Executive Office of Aging
- Department of Health, Tobacco Prevention and Education Program
- Housing and Community Development Corporation of Hawaii, Resident Services Branch
- Office of Youth Services

### **County Government Agencies**

- County Police Departments: Juvenile Sections, Informational Resources Section, Community Policing, DARE Officers, and Explorers
- Department of Parks and Recreation, City and County of Honolulu
- Elderly Affairs Division, City and County of Honolulu

### **Private/Non-Profits**

- Coalition for a Drug-Free Hawaii
- Kamehameha Schools
- MADD Hawaii
- National Crime Prevention Council (Washington, DC)
- Western Community Policing Institute (Oregon)

### **Others**

- Alzheimer's Association – Safe Return
- HMSA
- Honolulu Paramedic Association

### **Community Groups**

- Community Action Seminar Community-Based Teams
- Community Coalition for Neighborhood Safety (Oahu and Big Island)

## **MEMBERSHIPS**

### **National**

**1. Crime Prevention Coalition of America**

This is a national coalition of 4,500 national, federal, state, and community organizations committed to preventing crime and sharing of effective crime prevention information.

The National Crime Prevention Council (NCPC) is the secretariat to the coalition. NCPC offers training, technical assistance, and a national focus for crime prevention. It also publishes books, camera-ready program material kits, posters, and informational and policy reports on a variety of crime prevention and community-building subjects.

**2. National McGruff House and Truck Program**

The Branch has been a member of the McGruff Truck Program since 1988. The National McGruff House and Truck Program is based in Salt Lake City, Utah. Hawaii continues to share its McGruff Truck Program efforts with others at the National Crime Prevention Conferences.

### **Local**

**1. HI-Net**

Federal agencies that receive federal funds meet monthly to coordinate funding and program services that address drug and violence-free programming/activities/trainings in the state. Representatives are from the DOE's Safe and Drug-Free Schools and Communities Program; Pacific Resources for Education and Learning; Department of Health, Alcohol and Drug Abuse Division and Adolescent Wellness Program; Office of Youth Services; Housing and Community Development Corporation of Hawaii; Kamehameha Schools; and University of Hawaii, Curriculum Research & Development Group.

**2. Ola Pono Awards**

A working group made up of representatives from the DOE's Safe and Drug-Free Schools Program, HMSA, Coalition for a Drug-Free Hawaii, and Kamehameha Schools to provide recognition to individuals and groups who have made an exemplary contribution to drug and violence-free efforts in the state.

**3. Honolulu County Coalition to Prevent Underage Drinking/Hawaii Partnership to Prevent Underage Drinking (HPPUD)**

This is a partnership with other agencies to address the issue of underage drinking from the perspectives of law enforcement, education, media, and legislation.

**4. National Association of Attorneys General, Youth Access to Alcohol Task Force**

This committee began in July 2005. The Attorney General is a member of the Task Force which shares information on underage drinking. The Branch Chief represents the Attorney General on the "Best Practices" sub-committee.

5. **Western Community Policing Institute, State Advisory Committee**  
State Advisory Committee that makes recommendations to the Western Community Policing Institute regarding crime prevention/community policing training for Hawaii.

#### **MEETINGS AND EVENTS ATTENDED BY BRANCH STAFF**

1. Internet Crimes Against Children, 15<sup>th</sup> Flr., July 1, 2005 (PSA review/comments)
2. American Legion, McGruff/NCPC booth assistance, August 18-21, 2005, Hawaii Convention Center
3. Youth Advocate Luncheon at Washington Place, October 28, 2005
4. Anheuser Busch meeting with national AB representatives and UH officials/staff and Attorney General Mark Bennett, July 26, 2006, UHM
5. Ola Pono Awards Community presentation at Nanakuli HS, February 8, 2006
6. LG's Alcohol Prevention Month proclamation signing, April 6, 2006
7. MADD Multi-Media Show, Mid-Pacific Institute, April 20, 2006
8. Underage Drinking Military Think Tank Meeting, April 26, 2006, Prince Kuhio
9. Underage Drinking Hotline Press Conference, June 1, 2006, Governor's Office

#### **WCPI SAC Meetings**

1. June 28, 2005, HPD Training Academy
2. December 19, 2006, Civil Defense
3. March 7, 2006, Civil Defense
4. June 6, 2006, Training Academy

#### **HPPUD Meetings**

1. September 20, 2005, JSD/HPD
2. October 20, 2005, JSD/HPD
3. November 22, 2005, JSD/HPD
4. December 13, 2005, UH
5. January 26, 2006, JSD/HPD (Did not attend; AB meeting with UH)
6. March 23, 2006, JSD/HPD
7. June 8, 2006, Kalihi/HPD

#### **HI-Net Meetings**

1. July 15, 2005, Kamehameha Schools
2. May 1, 2006, OYS
3. February 10, 2006, OYS
4. June 27, 2006, Leiopapa A Kamehameha

## **GRANTS AND PLANNING BRANCH**

Adrian Kwock, Branch Chief  
Grants and Planning Specialists  
Kathy Mitchell (started 8/2005)  
Julie Okamoto  
Nancy Ralston (resigned 10/2005)  
Shaleigh Tice (started 6/2006)  
Ralph Uyeoka  
Fredese Whitsett (started 3/2006)  
Anthony Wong (retired 12/2005)

### **MAJOR ACCOMPLISHMENTS AND IMPACT**

This year, the Branch was awarded \$5,022,112 in federal grants. At the end of the fiscal year, two VAWA Discretionary Grant Applications totaling \$1,235,799 (Safe Havens, \$750,000; Rural, \$485,799) were awaiting notification of award. The Branch also administered state grants that totaled \$2,437,070. A total of 103 subgrants (93 federal, 10 state) were administered.

#### **1. Planning and Coordination**

Much of the Branch's work involved 16 multi-agency planning and coordination efforts related to crime and victim issues. These efforts, systemwide or statewide involvement of agencies, often exceed the impact of individual projects. Major on-going efforts included the Interagency Council on Intermediate Sanctions, strategic plan developed for underserved crime victims, drug interdiction task forces, domestic violence fatality review, and community prosecution.

#### **2. Training and Technical Assistance**

The Branch provided assistance in training and technical assistance to criminal justice agencies and others. Training workshops on Evidence-Based Correctional Program Checklist, Comprehensive Sex Offender Management, ADA-Disabilities, and Financial Management were supported. The Judiciary and the Department of Public Safety were assisted in using the federal "grants.gov" process.

Discretionary grant/technical assistance information was disseminated to agencies. Technical assistance for federal applications was provided and resulted in: 1) an application to the Office on Violence Against Women (OVW) for \$600,000 for disabled victims (collaboration by Disabilities and Communications Access Board, Hawaii Disability Rights Center (HDRC), and Hawaii State Coalition Against Domestic Violence), 2) an application to the Bureau of Justice Assistance by the Department of Public Safety for \$135,240 for comprehensive sex offender management, and 3) submissions by multiple non-profit agencies to OVW for transitional housing for domestic violence victims. It is anticipated that the Department of Public Safety will receive an award. Turning Point for Families has received a transitional housing award.

Information regarding Congressional Legislation and grant-related requirements (Limited English Proficiency, lobbying, and new grant compliance certifications) were disseminated to agencies. Topical information on domestic violence, sexual assault, and offender programs was also circulated.

3. **Legislative Efforts**

Staff provided information on domestic violence, sex assault, anti-human trafficking, and funding (federal funds, career criminal prosecution and victim witness assistance, and weed and seed). Act 133, SLH 2005 provided authority to the Department of the Attorney General and the Division to administer programs for the prevention of sexual violence and the protection and treatment of victims of sexual violence. For the next fiscal year, the legislature transferred monies from the Department of Health to the Department's budget to fund this program. The Department also obtained emergency funding (Act 77, SLH 2006) which doubled the State resources available for sex assault services. After 1-2 years of working with an ad hoc group, Act 82, SLH 2006 was enacted that established the Domestic Violence Fatality Review team within the Department of Health.

**PLANNING AND COORDINATION**

1. **Crime and Offender Issues**

- **Interagency Council on Intermediate Sanctions (ICIS).** The Branch staff participate in the ICIS effort by providing assistance as requested and monitoring a Byrne grant that supports the effort. The staff helped formulate the plan to bring Evidenced-Based Correctional Program Checklist (CPC) to criminal justice evaluators in May 2006.
- **Correctional Program Checklist (CPC)** (formerly Correctional Program Assessment Inventory<sup>®</sup>, CPAI). In an effort to improve the service and treatment response to reduce offender recidivism, ICIS has adopted the CPC to measure program integrity and quality. Branch staff is the lead for the CPC Coordinating Committee. The committee is responsible for developing the processes for coordinating/assigning review teams, scheduling assessments, reviewing reports and responses, providing technical assistance to programs, and developing policies and procedures for program assessment. CPC members include representatives from the Departments of Public Safety, Health, and Human Services; the Judiciary; and the Hawaii Paroling Authority. Branch staff oversaw the completion of six program evaluations. The CPC is being used to assess adult substance abuse, domestic violence, and sex offender treatment programs to ensure that evidence based practices are used and that a sound agency organization exists.
- **Drug Interdiction Task Forces.** The staff participated in quarterly meetings with the federally funded Hawaii Narcotics Task Force and the Statewide Marijuana Eradication Task Force. The task force meetings provide participants with the opportunity to share information, intelligence, and resources. A portion of these

meetings was used for training purposes. Mission scheduling and planning also take place during these meetings.

- **Community Prosecutors.** The staff coordinated and facilitated quarterly meetings with community prosecutors from Hawaii, Honolulu, and Maui to identify and share creative approaches to community prosecution and lessons learned. As a result of the meetings, the community prosecutors were guest speakers at the Communities Working Together Conference held in Kona in September 2005. Approximately 150 persons attended. The conference was sponsored by the Hawaii Office of the Prosecuting Attorney. Branch staff compiled the evaluation results and provided technical assistance.
- **Sex Offender Management Team (SOMT).** Branch staff drafted the Hawaii Paroling Authority's technical assistance application to the Center on Sex Offender Management for training on a comprehensive approach to sex offender management, which was held in Honolulu in November 2005.
- **Hawaii Anti-Trafficking Task Force (HATTF).** HATTF is designed to empower local law enforcement to better identify and interdict human trafficking in its various forms, whether it is forced prostitution, indentured servitude, peonage, or other forms of forced labor. The task force was formed to help local law enforcement develop and maintain close working relationships with victim service providers and other faith-based and community organizations, as well as with federal law enforcement agencies such as the U.S. Department of Homeland Security's Immigration and Customs Enforcement and the Federal Bureau of Investigation. Since February 2006, the Branch has been responsible for coordinating and facilitating the HATTF monthly meetings as well as the monthly meetings of the Protocol and the Law Enforcement Committees.
- **Police Training Directors Coalition.** The Branch Chief participates in quarterly meetings with the training directors from the four county police departments, the Department of Public Safety, and the Federal Bureau of Investigation. The meetings provide a vehicle for the departments to discuss training issues, improve training, and share training opportunities and resources.

## 2. Victim Issues

- **Victim Witness Coordinators (VWC).** The bimonthly meetings include sessions on victim activities in the different jurisdictions. The meetings enabled federal, state, and county criminal justice personnel to network and discuss victim services and issues. Participating agencies include the four county VW programs, the Crime Victim Compensation Commission, the U.S. Attorney's Office, the Federal Bureau of Investigation, the Judiciary, Missing Child Center Hawaii, and CPJAD. CPJAD convenes and facilitates the meetings.

- **Stalking.** This multi-agency training effort began in 2004. This year, staff provided technical assistance on stalking. Protocols were developed and resources to provide a coordinated action in increasing victim safety and holding perpetrators more accountable in stalking crimes were identified. While the planning specialist with expertise retired, the Branch maintains resources developed through prior efforts.
- **Fatality Review.** Since 2002, the Branch staff participated in an initiative to establish an adult domestic violence fatality review (DVFR) team in Hawaii. The multi-agency team identified critical issues that needed to be addressed; developed a bill to establish a team in the Department of Health; and is developing policies, procedures, and infrastructure for a Hawaii DVFR. The bill passed as Act 82, SLH 2006. CPJAD arranged and supported both mainland and local training and provided organizational and logistical support for the many meetings held.
- **Elder Abuse and Exploitation.** Two projects focus on elder abuse and financial exploitation and include investigation efforts, victim services, and multi-disciplinary training. The Branch facilitated meetings with the funded agencies to ensure coordination between the projects. Participants included the Department of Human Services, the Executive Office on Aging, and the Honolulu Elder Affairs Division. The elder abuse meetings provided a venue that previously did not exist for state and county agencies to share programmatic information, outreach efforts, new initiatives in the field, in-service training, and promising practices in other jurisdictions. In addition, it provided a forum for discussing problematic areas between agencies.
- **Sex Assault.** The 2005 Legislature received a recommendation to transfer oversight of services and funding for sexual assault programs from the Department of Health to the Department of the Attorney General from the Hawaii Coalition Against Sex Assault. Act 133, effective July 1, 2005, includes language that prevention and treatment programs are to be administered by the Department. As a result of Act 133, the 2006 Legislature transferred sex assault services funding from the Department of Health to the Department of the Attorney General. With the federal victim grants, it is anticipated that a comprehensive approach to sex assault services will be carried out.

The Branch continued its support for multi-disciplinary sexual assault efforts through its assistance and funding of the Statewide Sexual Assault Multi-Disciplinary Training Conference held June 7-9, 2006 in Kona. Approximately 90 individuals, representing each of the counties and all of the disciplines involved in responding to sexual assault cases, attended the conference. Special emphasis was placed on working effectively with victims of sexual assault who have disabilities. Police, prosecutors, and the professionals in related agencies reported that they gained new skills and knowledge that will be integrated into their work.

Through county sex assault service providers, federal funds supported the nurse examiner programs for sex assault victims through the Hawaii and Kauai County Police Departments.

- **Immigrant Victims of Domestic Violence and Stalking.** The Branch worked with its partners (Domestic Violence Coalition, U.S. Attorney's Office, county police and prosecutor agencies, military, Na Loio, and the University of Hawaii at Manoa) to provide domestic violence and stalking outreach services to immigrant and rural communities.
- **Hawaii State Family Visitation Centers Network.** The Branch, with the Judiciary, continued facilitating the statewide visitation center network of non-profit agencies and funding visitation and exchange services for families. The Branch and the Judiciary coordinate ongoing meetings and training events for Network members.
- **National Association of Victim Assistance Administrators Strategic Planning (NAVAA SP).** Hawaii was one of six states selected to receive technical assistance and training for strategic planning. A four-member team (Department of the Attorney General, Department of Human Services, Crime Victim Compensation Commission, and the U.S. Attorney's Office) received training in Washington D.C. in November 2003. The team was expanded to include the Maui Prosecutor's Office and the Department of Health. The NAVAA SP team developed a strategic plan focused on four underserved victim populations: elderly, persons with disabilities, immigrants/limited English proficiency, and tourists. The plan was completed in October 2005, and a follow-up report, indicating implementation progress, was done in June 2006. The Branch supported implementation efforts through funding projects and training that targeted services to the underserved victim populations. This included the Visitor Aloha society of Hawaii Conference held on July 28, 2006 which focused on visitors; Disability Access Conference held on June 8-9, 2006; training for criminal justice and victim staff on Americans with Disabilities Act (ADA) compliance and the rights of victims with disabilities; and interpretive and translation services to victims of crime offered through the Bi-Lingual Access Line and the Honolulu Prosecutor's Office. The plan was used by agencies in legislative efforts to establish an Office of Language Access, which resulted in Act 290, SLH 2006.

## **GRANT OUTCOMES**

Internal improvements were made to improve grant administration. This included improvement in procedures to process Requests for Funds and Project Expenditure Reports, establishment of procedures dealing with new procurement requirements, and federal grant adjustment notices.

Grant programs resulted in the following:

- Improved skills of law enforcement, prosecutors, treatment providers, and victim service providers through training.
- Increased safety for the community through the investigation and prosecution of offenders.
- Increased safety for the community through improved management of offenders and assessment of programs.
- System improvements through multi-disciplinary trainings and collaborations.

- Increased access to services for crime victims through strategic planning, training, and cultural outreach.

## **CRIME GRANTS AND PROJECTS**

### **FEDERAL GRANTS ( 93 subgrants)**

#### **1. Edward Byrne Memorial/JAG Grants (32)**

##### Honolulu Police Department

Statewide Marijuana Eradication Task Force  
 Making A Difference (Weed & Seed)  
 DA GRAD (Youth Crime Prevention)  
 Keep Your Identity (ID Theft)  
 Project Clean Sweep (Firearms)

<b>State Funds</b>	
Career Criminal	\$1,433,454
Victim Witness	\$653,616

## **TRAINING AND TECHNICAL ASSISTANCE**

### **1. Branch Organized or Assisted Training Workshops**

- BJA Technical Assistance: Disabilities Training, August 10-12, 15-16, 18, 2005 (131 total participants – Honolulu 87 participants, Hilo 18, Maui 8, Kauai 18)
- OC Financial Management Training, June 20-23, 2006, Honolulu (90 participants). Two days were targeted for all agencies receiving direct funding from OJP. There were 2 sessions for CPJAD subgrantees.

### **2. Branch Sponsored Subgrantee Personnel to Attend Trainings**

- OVW Training for Grantees: Best Practices for Serving Immigrant Victims & 10<sup>th</sup> National Network Conference, Orange County, California, November 7-10, 2005; four personnel from the Domestic Violence Clearinghouse and Legal Hotline
- Safe Havens Training: Addressing Domestic Violence and Child Custody Institute, November 5-8, 2005; one staff person from Parents and Children Together.
- OVW Training for Grantees: Best Practices for Serving Immigrant Victims Miami, Florida, June 12-16, 2006; one staff person from Parents and Children Together.

## **JUVENILE JUSTICE INFORMATION SYSTEM**

Eileen Madigan, Program Coordinator  
Jerry Wile, JJIS Project Manager (started 10/2005)  
Gregory Malick, Lead Analyst  
Stuart Okumura, Armelinda Martin, & Rodney Hirokane, Analysts  
U Fai Lao, Programmer Analyst  
Kenneth Kakazu, Information Accuracy Analyst  
Valerie Kaniaupio, Clerk-Typist

### **MAJOR ACCOMPLISHMENTS**

The resources of the JJIS Branch are gradually shifting to the Next Generation (NG) JJIS. The user needs assessment phase for the NG JJIS was completed, the NG JJIS Project Manager was hired, and the contract for conceptual design was executed. The federal budget for federal fiscal year 2006 included third year funding for the NG JJIS and the application was submitted to the Office of Juvenile Justice Delinquency Prevention. In addition, the Juvenile Justice Information Committee (JJIC) addressed policy issues that were identified during the user needs assessment phase. Some of the key policy decisions include limited information sharing with Department of Education, Child Protective Services, and Department of Health; access to juvenile pictures under specific conditions; support for identifying high risk juveniles; and, the establishment of a standard statewide booking form for juveniles. An outline of the JJIS strategic plan was also completed in this period. The strategic plan will guide the completion of the NG JJIS and provide for measurements of its success.

Considerable resources are still being devoted to the current JJIS, a mission-critical information system that is being used statewide by the police, prosecutors, Family Court, the Hawaii Youth Correctional Facility, and the Department of the Attorney General. Release 18 of the JJIS software was installed in March 2006. The release included interfaces with the Maui Prosecutor and the Honolulu Police. It also enhanced the interface with Family Court by adding data elements for address and related persons information. Another key component of the release was to convert some of the interfaces from “push” to “pull” processing. In addition, the move to eliminate third-party middleware was initiated to simplify interfaces and to save money. The design phase for interfaces with the Hawaii County Police and Kauai Police was also completed. On the GIS front, there were two demonstrations of the JJIS GIS; one at the state ESRI User Group Meeting and the other at the East West Center Summer Population Seminar.

### **IMPACT**

The JJIS program is having a positive impact on its user agencies in several areas. The need for double data entry has been eliminated for two more agencies with the implementation of the new interfaces. The conversion to “pull” processing moves the responsibility for data recovery efforts from the agencies to the JJIS staff. Both of these efforts give the agencies more time for their core business as well as improving the quality of the data in JJIS. In the area of the NG JJIS, the policy decisions that have been made will have far-reaching impacts for all of the participating agencies and for the JJIS program.

Two tables of JJIS usage follow. The first table, “Transactions per Month,” shows that 100,540 JJIS screens were accessed by agencies. Agencies that enter data directly into the JJIS, as opposed to those that send data through an interface, would have greater numbers of transactions as their transaction count includes both data entry and viewing.

**Table 1: Transactions per Month**

Fiscal Year 06	HPD	HPA	FC	HYCF	KPD	KPA	HCPD	HCPA	MPD	MPA	AG	Total
July 2005	55,857	5,864	2,090	1,122	2,870	4,348	3,728	649	17	2,466	2,149	78,694

## **OTHER SIGNIFICANT ACTIVITIES**

JJIS received technical assistance from two organizations in FY 2006. In August 2005, the Integrated Justice Information Systems (IJIS) Institute agreed to review and assess both the functional and technical requirements that had been developed for the Next Generation JJIS. The IJIS Institute is a public/private partnership formed at the request of BJA with a mission to “apply the expertise of industry to assist the justice and public safety community in the innovative and effective use of technologies to better share information in a way that benefits industry, the public sector, and society as a whole.”

In requesting the technical assistance, JJIS was requesting outside expertise in several areas related to the Next Generation system:

- The appropriateness of choosing DB2/WebSphere for the development environment.
- Whether the requirements as stated formed a strong enough foundation for subsequent project phases.
- Areas where the requirements posed the most risk for the success of the project.
- Areas in the requirements where better alternatives should be considered.
- Best practices to be followed in proceeding to the subsequent phases.

In its report, IJIS confirmed the appropriateness of the proposed development environment and the completeness of the functional and technical requirements. Several policy and procedural areas that needed to be addressed were identified. The confirmation from IJIS was important because of the significant cost of the NG JJIS. Having a solid first phase as the foundation for subsequent design and development is critical to the success of the project.

The second request for technical assistance in FY 2006 was to the National Center for Juvenile Justice (NCJJ), the research division of the National Council of Juvenile and Family Court Judges. In an effort to strengthen the research capabilities of the JJIS, a partnership with NCJJ was initiated with several objectives. The Family Court statistics that NCJJ needs for its national reporting will be provided annually by the JJIS. NCJJ has the expertise in bridging the gap between researchers and technical analysts. The JJIS program needs to develop that expertise and also to develop a research-oriented data dictionary. Another issue that NCJJ addressed during the technical assistance was related to Disproportionate Minority Contact (DMC). The Office of Youth Services (OYS) is required to report DMC statistics to OJJDP every year. After review with NCJJ, it was agreed that JJIS will provide the annual DMC stats to OYS. We expect to continue an ongoing relationship with NCJJ in order to make the best use of the information in the JJIS.

At the Department level, the JJIS branch participated in the technical assistance from SEARCH on development of an IT security policy. There were three on-site visits from SEARCH security experts during FY 2006. The technical assistance included an overview of a risk assessment tool, working through the self-assessment tool, and reviewing roles and activities. These activities formed the basis for development of a desktop security policy and will also be used in future policies related to IT security.

JJIS staff also participated in collaborative efforts related to the JJIS program.

- The Serious Habitual Offender Community Action Program (SHOCAP) is a project that was undertaken on the Big Island. The importance of SHOCAP from a JJIS perspective is the level of information sharing among law enforcement, courts, schools, health, and human services.
- The Access Hawaii Committee has oversight for the e-gov initiative in the State of Hawaii. Participation in this group provides awareness of other Departments' projects and means that JJIS can take advantage of appropriate IT development in other agencies.
- Truancy is a key issue and has been identified as a pathway to more serious delinquency. In FY 2006, JJIS joined several other agencies under the leadership of the Office of Youth Services to address problems related to truancy. JJIS may be able to provide the truancy group with data that can be used in examining the issues.

Another measure of impact for the JJIS is in responsiveness to its users. The JJIS Branch uses a "Change Request" system to track all requests for software and data changes. The same system is used to track requests for reports or data. Enhancement suggestions for the JJIS are logged in the change request system. Any errors that are found in the software are also logged so that fixes can be accomplished in a controlled environment. Over the course of FY 2006, the JJIS Branch received 277 change requests, down from 294 requests in FY 2005. There were 392 change requests resolved in FY 2006, up from 231 that were resolved in FY 2005.

### **MAJOR PROGRAM MEETINGS**

- **Juvenile Justice Information Committee:**  
July 27, 2005 (25 participants); January 13, 2006 (27 participants); May 25, 2006 (22 participants); June 26, 2006 (25 participants)
- **Policy Subcommittee:**  
February 2, 2006 (14); March 9, 2006 (12); April 13, 2006 (13)
- **Subcommittee on Defining the Research Role for JJIS Information:**  
December 7, 2005 (8)
- **JJIS User Committee:**  
April 27, 2006 (21)
- **GIS User Committee:**  
July 19, 2005 (8)
- **"Next Generation" Confirmation of Needs Assessment Meetings:**  
July 8, 2005 – Kauai (18)  
July 11, 2005 – Oahu (46)  
July 13, 2005 – Hawaii (19)  
July 14, 2005 – Maui (11)
- **"Next Generation" Scenario-Based Planning Meetings:**  
December 12, 2005 – law violations (26)

December 12, 2005 – status offenses (31)  
December 13, 2005 – DOE, DOH, CPS (20)  
December 14, 2005 – truancy (21)  
December 16, 2005 – HYCF (18)  
December 16, 2005 – courts (14)

## **USER TRAINING**

- Office of Youth Services: July 27, 2005 – 3 users trained
- Criminal Justice Division, Department of the Attorney General: August 2, 2005 – 3 users trained
- Honolulu Prosecutor: August 4, 2005 – 6 users trained
- Family Court, Third Circuit (Hilo side): August 4, 2005 – 15 users trained
- Honolulu Police Department: August 5, 2005 – 7 users trained
- Family Court, First Circuit: August 8, 2005 – 9 users trained
- Family Court, First Circuit: August 9, 2005 – 11 users trained
- Kauai Police Department: August 11, 2005 – 9 users trained
- Kauai Prosecutor: August 11, 2005 – 3 users trained
- Family Court, Third Circuit (Kona side): August 12, 2005 – 6 users trained
- Maui Prosecutor: August 12, 2005 – 3 users trained
- Hawaii County Prosecutor: August 30, 2005 – 5 users trained
- Kauai Prosecutor: September 1, 2005 – 4 users trained
- Investigations Division, Department of the Attorney General: September 30, 2005 – 1 user trained
- Family Court, Fifth Circuit: May 12, 2006 – 9 users trained
- Hawaii County Police Department (Hilo): June 21, 2006 – 6 users trained
- Hawaii County Police Department (Kona): June 22, 2006 - 5 users trained
- Family Court, Third Circuit (Kona): June 22, 2006 – 5 users trained

## RESEARCH AND STATISTICS BRANCH

Paul Perrone, Branch Chief  
Lydia Seumanu, Senior Research Analyst (started 9/2005)  
Genbao Gao, Research Statistician  
Lisa Pasko, Juvenile Justice Research Analyst  
Timothy Wong, Project Researcher (started 12/2005)  
Jason Sanders, ICIS Research Analyst (through 6/2006)

### **MAJOR ACCOMPLISHMENTS**

The Research and Statistics Branch worked on four especially notable projects: 1) the Branch continued its strong support of the Interagency Council on Intermediate Sanctions (ICIS) via the assignment of two researcher positions with multiple research tasks; (2) the Branch played a key role in the development and initial assessments of the HOPE Project, a Judiciary effort that has thus far resulted in dramatically reduced probation failure rates and is starting to capture national attention; 3) the Branch concluded the second year and began the third and final year of the utilization of federal funds to conduct research with data from the Juvenile Justice Information System; and 4) the Branch reinitiated its statewide crime victimization survey after an eight-year hiatus.

The Branch published 10 reports, gave 8 presentations, worked on 19 projects, and participated in 17 professional conferences, workshops, and/or trainings. Two annual reports, the *Semi-Annual Crime Summary* and *Firearm Registrations in Hawaii*, could not be prepared in FY 2006 due to the implementation of new records management systems causing substantial delays in the police departments' data submissions. The ICIS and HOPE projects call for the production of ongoing data updates and technical assessments for specific use by the participating agencies, rather than the publication of stand alone, "final reports" that are broadly disseminated.

Publications and projects/activities described in the next two sections of this report are linked to CPJAD's mission and major goals.

### **PUBLICATIONS** (chronological order)

*Recidivism Analysis for Offenders Administered the Domestic Violence Screening Instrument (DVSI)* (September 2005)

This 4-page ICIS report tracks and examines 6-, 12-, and 18-month overall recidivism rates for adult offenders who were administered the DVSI during the previous two and a half years (2003 to 2005).

*Project Safe Neighborhoods in Hawaii: Crime Mapping Report* (November 2005)

This 51-page "crime mapping" report uses Geographic Information System (GIS) technologies and methodologies to graphically depict the distribution of federal firearm offenses and offenders throughout Hawaii. The source data are derived from cases prosecuted by the U.S. Attorney in Hawaii as part of the nationwide PSN effort.

*Crime in Hawaii, 2004* (December 2006)

Based on the Uniform Crime Reporting Program's monthly offense and arrest reports from the county police departments, *Crime in Hawaii, 2004* provides 172 pages of detailed data and analyses and provides critical measurements of the nature and extent of crime.

*Driving Under the Influence in the City & County of Honolulu* (January 2006)

This 38-page study report, prepared in partnership with the University of Hawaii-West Oahu, provides a statistical profile of DUI arrestees, case outcomes, collisions, and injuries, and documents the policy-relevant concerns and recommendations of key local stakeholders. Included are descriptive statistics and cross-tabulations examining the relationship between arrestee demographics, prior DUI and overall criminal histories, conviction rates, the likelihood of motor vehicle collisions and personal injuries, injury severity, and comparisons between arrestees who either consent or refuse to take Blood Alcohol Concentration tests.

*LSI-R and ASUS Data Reassessment Update Report* (January 2006)

This 15-page ICIS report tracks and examines changes in adult offenders' Level of Service Inventory-Revised (LSI-R) and Adult Substance Use Survey (ASUS) reassessment scores during the previous two and a half years.

*DVSI Data Update Report* (February 2006)

This 6-page ICIS report presents statistics derived from the Domestic Violence Screening Instrument (DVSI) during the previous three years.

*Community Action Seminar 2006: Survey Responses and Evaluation* (March 2006)

This 99-page report provides statistical measures and related assessments of participants' feedback on the annual CAS community mobilization training event that is organized by the Community and Crime Prevention Branch.

*Hate Crimes in Hawaii, 2005* (April 2006)

This 8-page report is the fourth annual publication of statewide hate crime incident data and related information.

*The Female Juvenile Offender in Hawaii (May)* and  
*The Serious Juvenile Offender in Hawaii (June)*

Although their cover dates suggest otherwise, these two reports were released concurrently, and draw upon the same datasets and types of analyses.

The 29-page Female Juvenile Offender report examines gender differences in arrests, adjudications and social characteristics of juvenile offenders in Hawaii. The study also investigates gender differences in histories of abuse and neglect, exposure to domestic violence, psychological diagnoses, self-injury, suicidal ideation/attempts, academic failure, gang involvement, delinquent peer groups, and drug and alcohol use. Female and male juvenile offenders' family backgrounds, including parental substance abuse and criminal histories, are also compared.

The 22-page Serious Juvenile Offender report presents analyses of similar factors that are predictive of status offending versus felony offending, and short-term detainment versus commitment to the Hawaii Youth Correctional Facility.

### **HIGHLIGHTED PROJECTS, ACTIVITIES, AND ISSUES** (alphabetical order)

**Asian/Pacific Islander Youth Violence Prevention Center's Scientific Advisory Board.** The Branch Chief served on the Scientific Advisory Committee in support of several proposed and in-progress studies, and offered a variety of suggestions and recommendations relating to research methodologies, data sources, agency referrals, etc.

**Assistance to the Community and Crime Prevention Branch.** Staff provided a variety of technical assistance to the Community and Crime Prevention Branch, including the preparation of an evaluation report on the annual Community Action Seminar.

**Community Epidemiology Workgroup.** The Branch Chief participates in a semi-annual discussion group of the Department of Health that brings together a variety of criminal justice and health/human service professionals to share and discuss timely drug-related data and information.

**Criminal Justice Clearinghouse.** The Branch responds to requests for crime data, technical assistance, and referrals from legislators, criminal justice agencies and professionals, other government agencies, researchers and academicians, the media, and the general public.

Summary statistics for 67 requests documented throughout the year include:

***Requestor Type:***

- 21 academic institution
- 8 criminal justice agency
- 7 news media
- 4 other business organization
- 16 other government agency
- 2 other research organization
- 8 private citizen
- 1 other

***Request Type:***

- 37 data/statistics
- 15 reports/publications
- 9 technical assistance
- 6 other information

***Action Taken:***

- 24 verbal assistance
- 22 email
- 5 mail or fax

24 referred to web site(s)  
7 prepared special reports  
7 referred to other sources

**CPJA Web Site.** The Branch maintained the CPJAD's proprietary web site for part of the year and assisted the Department's Information Systems and Technology staff in transitioning to a new, department-wide web site format. For both the old and new sites, CPJAD publications can be downloaded, and separate sections of the site pertain to each of the Division's four branches. The original CPJAD web site was visited tens of thousands of times since its inception in 1997, with a cumulative average of approximately 20 "hits" per day on the main welcome page. During the portion of the year in which the old site was active, the Branch received 35 messages via an online feedback form that appeared in its section of the site.

**Crime Victimization Survey.** After an eight-year hiatus, the development of a new, statewide crime victimization survey was completed and mailed to 2,060 randomly-selected state residents in May. The final survey report will be published in the next fiscal year.

**EEOP Statistics.** In August, the Branch Chief assisted the Department's personnel staff by compiling employee data and producing the statistics required for an annual Equal Employment Opportunity Program federal report. A specialized Excel spreadsheet and SPSS data set were created in order to more easily replicate this effort in the future.

**Firearm Registration Statistics Reporting Program.** The Branch receives, compiles, and reports annually on firearm registration data submitted monthly by the county police departments.

**Hate Crime Statistics Reporting Program.** The Branch receives, compiles, and reports annually on hate crime incident data submitted by the county prosecuting attorneys.

**HOPE Project.** The Branch Chief and the Senior Research Analyst are assisting the Judiciary in collecting and analyzing the data of the HOPE ("Hawaii's Opportunity-Based Probation with Enforcement") Project, a Judiciary initiative that seeks to reduce felony probation failure rates by holding probationers accountable to the terms and conditions of their sentences through the imposition of swift and certain "intermediate sanctions" (brief jail terms and/or referrals to in-patient treatment programs) whenever non-compliance occurs. Dramatic, sustained increases in probation compliance rates have been identified across four separate study groups. Preliminary results suggest that this approach is effective in increasing compliance of meetings with the probation officers and clean urinalysis of the felony probation population. The Judiciary received \$1 million funding to expand the program in Fiscal Year 2007. The National Institute of Justice and a renowned UCLA criminologist with expertise in this area have expressed interest in the project and have scheduled independent site visits for early FY 2007.

**Interagency Council on Intermediate Sanctions (ICIS).** The Branch continued its major contribution to the ICIS efforts to reduce criminal recidivism through an array of technical assistance provided by the ICIS Research Analyst and the Project Researcher, including data analysis and assessment, protocol-oriented recommendations, written reports, presentations, and service on the Working Group, Quality Assurance, and Research and Evaluation subcommittees.

It should be noted that although the ICIS Research Analyst is a Judiciary employee, the daily supervision and overall research effort is the responsibility of the Branch. The Judiciary does not have the infrastructure to conduct/oversee such research. The Branch Chief chairs the Research and Evaluation subcommittee, edits the ICIS newsletter, and created and maintains the ICIS web site.

**Justice Research and Statistics Association's Research Committee.** The Branch Chief served on the JRSA's national research committee, which recommends, facilitates, and coordinates multi-state research projects that are funded and/or otherwise coordinated through JRSA.

**Juvenile Justice Information System (JJIS) Research and Technical Assistance.** The federally funded Juvenile Justice Research Analyst conducted JJIS-based research and produced reports on female juvenile offenders and serious juvenile offenders in Hawaii. The Research Analyst worked with the staff of the National Center for Juvenile Justice, who provided assistance in assessing various possibilities for using and improving the JJIS data for research.

**Legislation.** Act 140, SLH 2006, on identity theft, provides funding for the Branch to establish a statewide identity theft tracking program in the next fiscal year.

**Media Contact.** The Branch Chief gave several newspaper, television, and radio interviews to discuss the implications of recently-released Branch studies and data.

**Project Safe Neighborhoods (PSN).** PSN is a national initiative of the U.S. Attorney General to prosecute and reduce firearm-related crimes by adjudicating cases in federal courts, where conviction rates and sentence lengths tend to be much higher than state court sentences. To conduct the research, the Branch received a three-year, \$150,000 grant from the U.S. Bureau of Justice Assistance. The final phase of PSN study was completed in September 2005. Branch staff also participated in the bi-monthly PSN-Hawaii Task Force meetings.

**State Justice Statistics Program and DUI Study.** As Hawaii's federally-designated Statistical Analysis Center, the Branch is a recipient of the U.S. Bureau of Justice Statistics' annual State Justice Statistics (SJS) grant to conduct criminological studies and develop new research technologies. The Branch collaborated with UH-West Oahu's Department of Justice Administration to conduct a study of Driving Under the Influence cases and related issues.

**Uniform Crime Reporting Program.** This was a problematic year for the Program, as the implementation of new police records management systems led to substantial delays in data submissions for all four police departments. As a result, the release of *Crime in Hawaii, 2004* was delayed until December, it was not possible to prepare a *Semi-Annual Crime Summary* covering the first half of CY 2006, and the deadline for submitting data for inclusion in the FBI's *Crime in the United States, 2005* was missed. At the end of the fiscal year, complete UCR data have not been received from the Hawaii and Kauai police departments.

**BRANCH PRESENTATIONS** (chronological order)

*Driving Under the Influence in the City & County of Honolulu* (Supreme Court, January). Paul Perrone, Branch Chief.

*Driving Under the Influence in the City & County of Honolulu* (State Capitol, January). Paul Perrone, Branch Chief.

*ICIS Research Update* (Second Circuit Court; February). Jason Sanders, ICIS Research Analyst.

*ICIS Research Update* (Hawaii Paroling Authority; February). Jason Sanders, ICIS Research Analyst.

*ICIS Research Update* (Fifth Circuit Court; April). Jason Sanders, ICIS Research Analyst.

*ICIS Research Update* (First Circuit Court; May). Jason Sanders, ICIS Research Analyst.

*The Female Juvenile Offender in Hawaii* (Honolulu; May). Lisa Pasko, Juvenile Justice Research Analyst and Paul Perrone, Branch Chief.

*The Serious Juvenile Offender in Hawaii* (Honolulu; June). Lisa Pasko, Juvenile Justice Research Analyst and Paul Perrone, Branch Chief.

## **ADMINISTRATION**

Lari Koga, Administrator  
Amy Tatsuno, Administrative Services Assistant  
Rebecca Leung, Account Clerk  
Carol Takayama, Account Clerk  
Carol Sakai, Clerk-Typist (Part-Time)

This was a year of change for the Division. Every branch had staff leaving and new staff hired. A total of 7 new staff joined the Division.

Also, with the Department of Health transferring the funds and responsibility to oversee sex assault services to the Attorney General, many meetings were held to discuss the status and transfer of the programs. Meetings included the DOH Maternal Child Health Division, the Sex Assault Coalition, Victim-Witness coordinators, and the Sex Abuse Treatment Center of the Kapiolani Medical Center, which has the master contract for such services.

The Interagency Council on Intermediate Sanctions is a major system change effort in the State. It uses evidence-based practices and programs that lead to reduction of recidivism among criminal offenders. Hawaii is one of the few states addressing recidivism on a statewide basis. As such, the Division administrator was invited to make a presentation at the annual National Criminal Justice Association conference in July 2005 on the status and outcomes of the state's effort.

Two all-staff sessions were held during the year: 1) the Judiciary's Information Management System and 2) naturopathic medicine. The Division was also the lead for the Department in the Foodbank Drive.

## **APPENDIX A: STAFF TRAINING AND CONFERENCES ATTENDED**

### **Community and Crime Prevention Branch**

#### **Valerie Mariano, Branch Chief**

1. LG's Moving Forward Conference, State Capitol, Honolulu, July 29, 2006
2. UH, Underage Drinking Trainings for Resident Managers, UHM, Honolulu, August 26, 2006
3. Performance Appraisal for Supervisors Training, State Capitol Auditorium, Honolulu, September 13, 2006
4. Human Trafficking, U.S. Attorney's Office, Honolulu, September 12, 2006
5. Drug Endangered Children Conference, Hawaii Prince Hotel, Honolulu, November 1-2, 2005
6. Model Drug Law Symposium, Sheraton Waikiki Hotel, Honolulu, November 30-December 2, 2005
7. DOH, Family Health Division Strategic Planning Meeting, Koolau Golf Course, Honolulu, December 5, 2005
8. Social Norms Marketing, Ilikai Hotel, Honolulu, December 6, 2005
9. SLATT (State and Local Anti-Terrorism Training), Doubletree Alana Hotel Waikiki, Honolulu, January 30-February 1, 2006
10. Leadership training, Dole Cannery, Honolulu, April 18, 2006,
11. Stompout Underage Drinking Conference, Radisson Waikiki Prince Kuhio Hotel, Honolulu, April 25, 2006,
12. WCPI Community Policing Training: Problem Solving for Your Community, HPD's Ke Kula Makai, Waipahu, June 7-8, 2006

#### **Kristell Corpuz, Community and Crime Prevention Specialist**

1. Drug Endangered Children Conference, Hawaii Prince Hotel, Honolulu, November 1-2, 2005
2. Model Drug Law Symposium, Sheraton Waikiki Hotel, Honolulu, November 30-December 2, 2005
3. Stompout Underage Drinking Conference, Radisson Waikiki Prince Kuhio Hotel, Honolulu, April 25, 2006
4. Teach-In Training, Oahu Work Links, Honolulu, April 27, 2006
5. Youth Gang Response System Conference, Koolau Golf Club, Kaneohe, May 2, 2006
6. WCPI Community Policing Training: Problem Solving for Your Community, HPD's Ke Kula Makai, Waipahu, June 7-8, 2006

#### **Angela Kaiwikuamooihou, Community and Crime Prevention Specialist**

1. Stompout Underage Drinking Conference, Radisson Waikiki Prince Kuhio Hotel, Honolulu, April 25, 2006
2. Teach-In Program Guest Speaker Training, Dillingham Plaza, Honolulu, April 27, 2006
3. Evidence-Based Correctional Programs & Reducing Recidivism, Kaahumanu Hale, Honolulu, May 2, 2006

## APPENDIX B: CPJA MULTI-YEAR PLAN (FISCAL YEARS 2004-2008)

Department Program Objective (as it relates to the division)

**To assist or coordinate statewide programs or activities for the improvement of law enforcement and criminal justice.**

VISION: To be a pivotal unit within the Department and in the State government on crime-related issues.

MISSION: --To inform and educate the community, policy-makers, and government agencies on crime-related issues and concerns in order to create a safer environment;  
--To assist agencies in improving crime-related services and operations;  
--To promote the involvement of communities in creating a safer environment;  
--To stimulate creative ideas in dealing with crime.

GOAL 1 **To provide user-oriented information in order to promote informed decision making on crime-related issues.**

Objective: Provide assistance to criminal justice agencies' research-related initiatives

- Assist the Intermediate Sanctions effort in establishing an evaluation and research infrastructure by 2004. Outcome: Completed; in 2005 a federal grant application to the DHHS was submitted by the UH but was not awarded. A Research Committee composed of agency staff with research ability & interest has been organized as a substitute.
- Assist in analyzing Intermediate Sanctions data and publish reports by 2006. Outcome: This fiscal year, 5 reports which analyzed data for the Intermediate Sanctions effort were completed and shared with the members. Reports are posted on the website. The analysis and dissemination of reports will continue through the next fiscal year.
- To seek general funds for a researcher position at the 2006 legislature. Outcome: Request for the position and funding was not approved for the 2006 legislature. Another request will be submitted for the 2007 Legislature's consideration.

Objective: Expand and improve program evaluation efforts.

- Establish a program evaluation research position with federal funds by 2004. Outcome: Completed in 2005. Federal crime monies fund an exempt position for project evaluation. The position was filled in mid-December 2005.
- Assist federally funded projects to establish measurable goals, objectives and performance measures, so that evaluations can be done by 2006. Outcome: Not completed as staff was hired in December 2006; to be done in 2007. Performance measure: number of new projects assisted in establishing measurable goals, objectives, and performance measures.

Objective: Increase information dissemination on federal grants (project accomplishments, funding availability, national developments).

- Create monthly grant-specific bulletins on website by 2006. Outcome: Not completed. Information on federal grant availability and national developments are disseminated to affected agencies. Bulletins on the division website has been given a low priority due to staff turnover.

Objective: Implement changes and enhancements to the JJIS to meet users needs.

- Create an interface with the Hawaii County Police Department's new Records Management System (RMS) by 2004. Outcome: This was not completed. The Hawaii County Police Department had some issues with their vendor, and so their timeline was changed. They intend to have the adult system addressed first, and juveniles in the next fiscal year. This will be implemented in November 2006.
- Add Family Court detention home processing information by 2004. Outcome: This was not completed; this task has been moved to the "Next Generation" JJIS and scheduled for 2008.
- Create an interface with Kauai Police Department's new RMS by 2004. Outcome: This was not completed. Like the Hawaii County Police Department, the Kauai Police Department's implementation is not on schedule. This affects their readiness to interface with the JJIS. This will be implemented in November 2006.

**GOAL 2      To increase collaborative efforts among communities and agencies in order to address crime-related issues.**

Objective: Train communities in addressing crime problems.

- Conduct annual Community Action Seminar to teach problem solving and teamwork skills. Outcome: Completed. The CAS was held on March 21-22, 2006 with a follow-up meeting to be held on October 26, 2006. Of the 23 team action plans submitted, 9 teams returned to the follow up meeting to share their results and what they learned.
- Publish newsletters as well as a web page to share the efforts of community teams throughout the state. Outcome: Completed; newsletters are posted on the division's website.

Objective: Disseminate crime prevention information to students and the community utilizing the McGruff character.

- Increase the number of McGruff Truck School Assemblies to K-3 public school students so that students know where to get emergency assistance. Outcome: Not accomplished; 3 school assemblies were completed, compared to 17 & 21 in previous years. This was due to staff turnover. One thousand seventy (1,070) students participated in the assemblies.
- Support neighbor island McGruff coordinators and their efforts in disseminating crime prevention messages. Outcome: In 2005, McGruff

Truck Assemblies were held on Maui. In 2006, information was not available.

- Partner with a radio or television station to maximize McGruff airtime messages. Outcome: Completed. Two television stations reported that they aired the McGruff public service announcements that totaled \$83,500 in airtime.

Objective: Promote multi-agency collaborative planning and grant applications efforts (government/community, restorative justice)

- Assess current collaborative efforts by 2004. Outcome: Completed the assessment in 2005. New collaborative efforts include Victim Strategic Plan, Hawaii Anti-Trafficking Task Force, and assessing offender treatment programs.

Objective: Initiate discussions and recommendations by the Juvenile Justice Interagency Committee (JJIC) on JJIS policy issues.

- Discuss “positive identification” of a juvenile, policies on confidentiality and misuse of data, and guidelines for data requests by 2004. Outcome: Completed 2006; proposed legislation for the 2007 Legislature.
- Establish standard policies for participating agencies that guide the use of the JJIS, confidentiality, and penalties for mis-use. Outcome: Completed in 2005.
- Determine access to the JJIS by the Public Defender, inclusion of the Youth Level of Service Inventory (YLSI) information, and the review of the JJIS purpose statement by 2006. Outcome: Completed June 2006; JJIC voted affirmatively on 3 issues.

### GOAL 3      **To obtain and optimize resources in order to address crime-related issues.**

Objective: Pursue funding opportunities to continue development of the Incident Based Reporting System (IBRS) and crime research and data needs.

- Assist police departments in seeking funding sources for police departments in 2004; continue as needed. Outcome: Not completed as police departments determined that IBRS is not a priority.
- Continually seek non-general fund resources to advance crime research. Outcome: In 2005 applications for research were submitted to the DHHS through the University of Hawaii and another to NIH through Ball State University; both were not awarded.
- Seek/initiate partnerships with other organizations for crime research. Outcome: The division partnered with the UH-West Oahu to study drinking and driving. The report was published in January 2006.
- Seek resources to establish JJIS research position by 2006. Outcome: the request for a position was requested but not approved. Another request will be made for the next biennium budget.

Objective: Conduct policy-relevant GIS/crime mapping research.

- Develop in-house GIS capabilities by 2004. Outcome: not completed as staff left for another position and the position was not filled.
- Foster UH and other partnerships by 2006. Outcome: not completed due to limited staff.  
Performance measure: number of and organization partnerships.

Objective: Increase the capability of criminal justice and victim agencies to access federal grants.

- Provide discretionary grant information to agencies. Outcome: Partially done. As soon as the Division receives a notice of grant application, it is sent to any agency that indicated an interest in the topic. We have not developed a system or mechanism to alert everyone, although we encourage agencies to sign up for the federal on-line grants information service.
- Assist agencies in applying for grants. Outcome: Completed. Staff assisted the Hawaii Paroling Authority in applying for a technical assistance grant from the Center for Sex Offender Management, which was approved. Staff assisted the Sex Abuse Treatment Center in an application for underserved sexual assault victims; this is pending at the end of the fiscal year.
- Apply for discretionary grants to support crime and victim assistance efforts. Outcome: Completed. A discretionary grant application for human trafficking was submitted and approved. Another grant application for family visitation centers was submitted and is pending at the close of the fiscal year.

Objective: Improve the administration of federal grants.

- Develop a multi-year strategy for the use of the Byrne grant that is outcome based by 2004. Outcome: Completed.
- Assess Violence Against Women and Victims Of Crime grants as to the achievement of the intended goals by 2004. (Not completed). Outcome: Not completed; VAWA 3-year plan to be reviewed & assessed in 2007. VOCA strategic plan assessment by the University of Hawaii was completed in June 2006.
- Develop and implement a grants management system (GMS) by 2004.  
Performance measure: A GMS for the division. This has been moved to 2007 due to staff time constraints the past year.

Objective: Develop partnerships and collaborate with other organizations to sponsor efforts to prevent crime.

- Partner with at least 1 new partner by 2004. Outcome: Completed; every year there has been a new partner. This year the DOH Tobacco Prevention program was a new partner in the media literacy workshop.
- Develop a Senior ID program for senior citizens to keep them safe. Outcome: Completed in 2004.
- Maintenance of the Kupuna ID program. Outcome: This year 1,405 Kupuna Ids were issued through 4 events. Discussions ensued with the Office of Elderly Affairs, Department of Health to transfer the program to them.

- Partner with at least 2 agencies annually. Outcome: Completed annually. The branch collaborated with 11 different agencies. Collaborative efforts included community mobilization, media literacy, Kupuna ID, etc.

Objective: Quality and timeliness of the JJIS data will be improved.

- Provide users with frequent reports on data discrepancies and timeliness of data entry by 2004. Outcome: Completed.
- Data quality audit will be initiated by 2006. Outcome: Revised to 2007. Performance measure: completion of audit.
- Frequency of timeliness reports will be increased to quarterly or monthly by 2006. Outcome: Completed; as of January 2006 quarterly reports are produces.

Objective: Better utilize the JJIS web page.

- JJIC-related matters will be posted by 2004. Outcome: Not completed; resources reassigned to the “Next Generation” JJIS.
- JJIS “software release” and FAQs will also be available by 2004. Outcome: Completed.
- JJIS user manual and results of data summary requests will be on-line by 2006. Outcome: The user manual is on-line as of November 2005. Data summary requests deferred to the NG JJIS.

Objective: Improve throughput and response time of requests.

- Time from user change request to implementation will be decreased by 10% by 2004. Outcome: Not completed; resources reassigned to “Next Generation” JJIS).
- Significant portion of regression testing will be automated by 2004. Outcome: Not completed; resources reassigned to “Next Generation” JJIS.
- Time from user change request to implementation will be decreased by 20% in 2006. Outcome: Not to be completed; resources reassigned to “Next Generation” JJIS.

Objective: Move to a “next generation” of the JJIS.

- Complete needs assessment, system requirements, and design alternatives by 2004. Outcome: Completed in *August 2005*.
- Determine the platform for the next generation and the role of the geographic information system (GIS) in the next generation system by 2004. Outcome: Completed in 2005.
- Define significant security upgrade as well as subsystems for notification and subscription services by 2004. Outcome: Not completed; resource reassigned to “Next Generation” JJIS.

**GOAL 4      To promote and advance improvements to the criminal justice system response to communities, victims, and offenders.**

- Objective: Assess the public's perceptions and concerns regarding crime and criminal justice in Hawaii.
- Begin development of survey instrument with input from agencies by 2004. Outcome: Questionnaire was completed and mailed to the community in June 2006. Analysis to be completed in the next year.
- Objective: Assess and prioritize staff involvement in multi-agency planning efforts.
- Determine which efforts to place staff and other resources by 2004. Outcome: completed in 2004.
  - Check progress and status of multi-agency efforts to determine continuation by 2006. Outcome: ongoing. Ended role in the domestic violence fatality review task force; considering sexual assault forensic protocol coordination effort for FY 2007.
- Objective: Implement a crime victim notification system.
- Facilitate discussion and development of a victim notification process among the county victim offices and the jail/prison by 2004. Outcome: Not fully completed. Discussions were done with the county victim coordinators and the Department of Public Safety. The Honolulu Prosecutor's Office has decided to pilot this system (2005). However, in late spring 2006, the Prosecutor's Office decided not to take the lead. Alternatives will be sought in 2007.
  - Implementation of the victim notification system by 2006. (Implementation to be in 2007 due to necessary change in plan.)  
Performance measure: victim notification system operating via government agency.
- Objective: Develop a coordinated plan for victim assistance in a terrorism or mass violence event.
- Develop MOAs to delineate agency responsibilities, process and funding mechanisms by 2004. Outcome: Not completed. The US Attorney has taken the lead; county victim programs have yet to determine their role in their county's response system.
  - Mechanism in place for agencies to assist another county in the event of terrorism or mass violence by 2006. Outcome: not completed and deadline is moved to the following year.  
Performance measure: County victim offices have mechanism in place.
